PALOUSE RIDGE GOLF CLUB
Pullman, Washington

FACT SHEET

Opening Day:

August 29, 2008

Description:

A venture of Washington State University, Palouse Ridge occupies 315 acres at the east end of the WSU campus and is the new home course of the Cougar men's and women's Pac-10 golf teams. A links-style design built to championship standards, the eco-friendly course fits the rolling topography of the Palouse and offers panoramic views of distant mountains in Idaho and Oregon. Recently enrolled in the Audubon Cooperative Sanctuary Program, this premier public-access facility and wildlife habitat will serve as a research center and recreational outlet for WSU students and staff. A broad donor base ensured that the \$12.3 million complex was built entirely without state funding.
